

Example Intelligent Manufacturing (600XXX) equity research

An automation-equipment supplier in the domestic-substitution cycle

Example Intelligent Manufacturing Co., Ltd. · 600XXX · fictional example

Rating: Accumulate · Target price: CNY 34.00

17 Jul 2026 · Full English edition · Jacaranda Stock Market Society

Investment thesis

Revenue (CNY bn)

4.52

FY2025

Revenue growth

20.2%

FY2025, YoY

Current price (CNY)

28.40

Close, 10 Jul 2026

Target price (CNY)

34.00

Base case

- Policy support and strong revenue growth position the company to keep gaining domestic share. [\[Inference\]](#)
- We view the company as a key beneficiary of domestic substitution and assign an Accumulate rating. [\[Opinion\]](#)
- Counterargument: growth could fall well short of forecast if downstream capex slows. [\[Inference\]](#)

Company snapshot

Revenue (CNY bn)

4.52

FY2025

Net profit (CNY bn)

0.51

FY2025

Net margin

11.3%

FY2025

Largest segment (CNY bn)

2.71

Intelligent equipment, FY2025

- Revenue and profit both grew at double-digit rates, with revenue at a record high. [\[Fact\]](#)
- The company operates midstream in automation-equipment manufacturing. [\[Fact\]](#)

Company history

2016

2021

2024

2026-11

Founded

Focused on industrial automation equipment

Listed

Listed on a fictional exchange

Overseas base

Opened an overseas manufacturing base

New control system

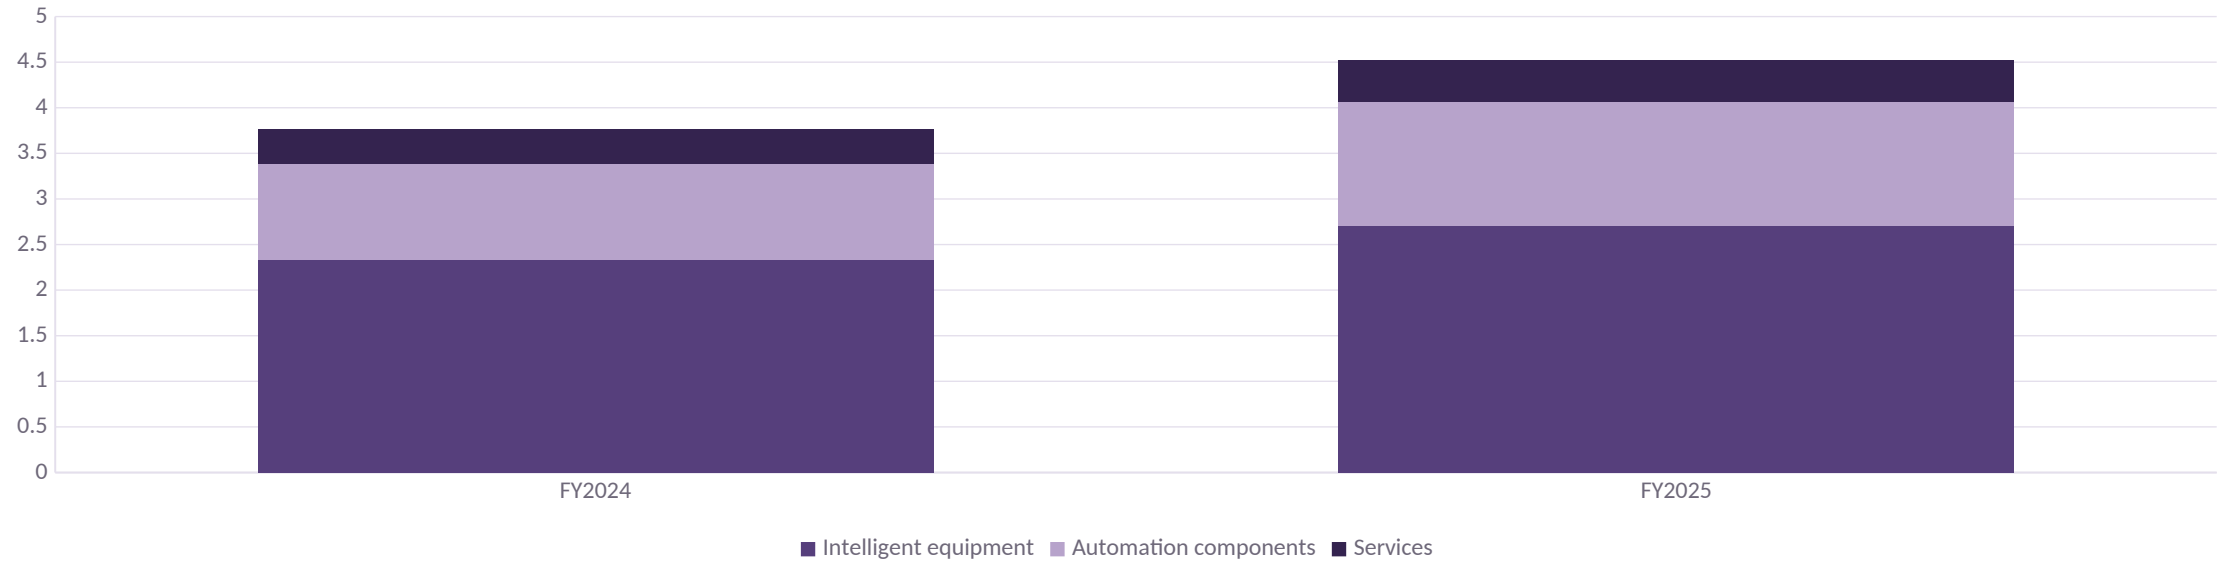

Next-generation control system planned

Value-chain position

- Industry guidance supports domestic substitution in intelligent manufacturing equipment. [\[Fact\]](#)
- If implemented, the policy could improve midstream order conditions. [\[Inference\]](#)

Segment mix

Segment revenue (FY2024-FY2025) · CNY bn · Source SRC-001

– Intelligent equipment is the largest segment; services remain a small share. [\[Fact\]](#)

Competitive landscape

Company

PE **18.2x**

Revenue growth **20.2%**

– Faster growth than peers, with double-digit revenue growth.

Peer A (fictional)

PE **22.5x**

Revenue growth **12.5%**

– Trades at a premium multiple.

Peer B (fictional)

PE **15.8x**

Revenue growth **8.9%**

– Slower growth and a lower multiple than the company.

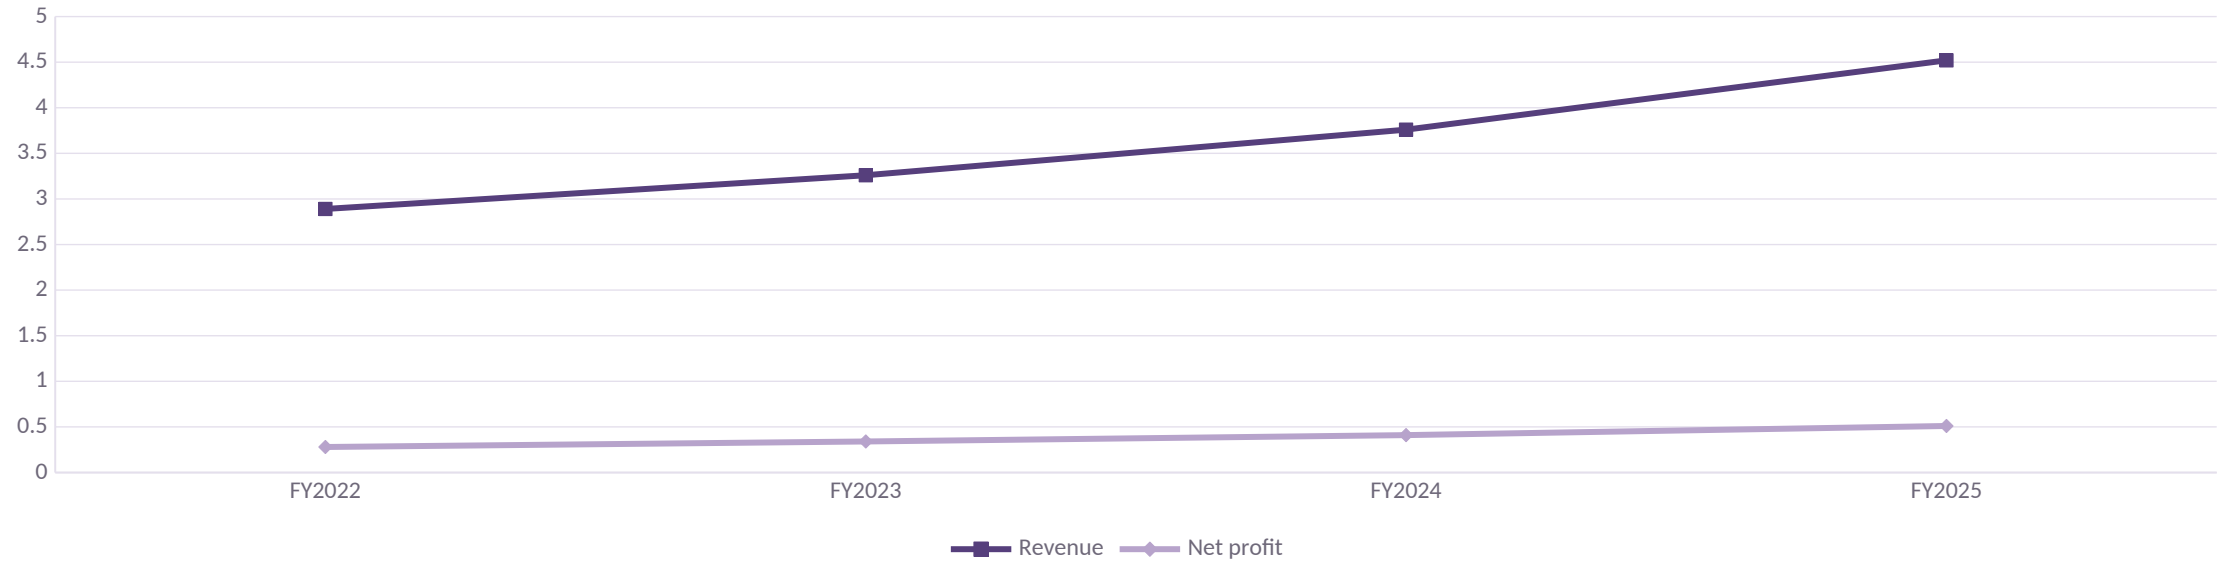

Historical financials

Metric	FY2022	FY2023	FY2024	FY2025
Revenue	2.89	3.26	3.76	4.52
Net profit	0.28	0.34	0.41	0.51
Revenue growth	N/A	N/A	N/A	20.2%
Net margin	N/A	N/A	N/A	11.3%

CNY bn · Source SRC-001

Revenue and profit trend

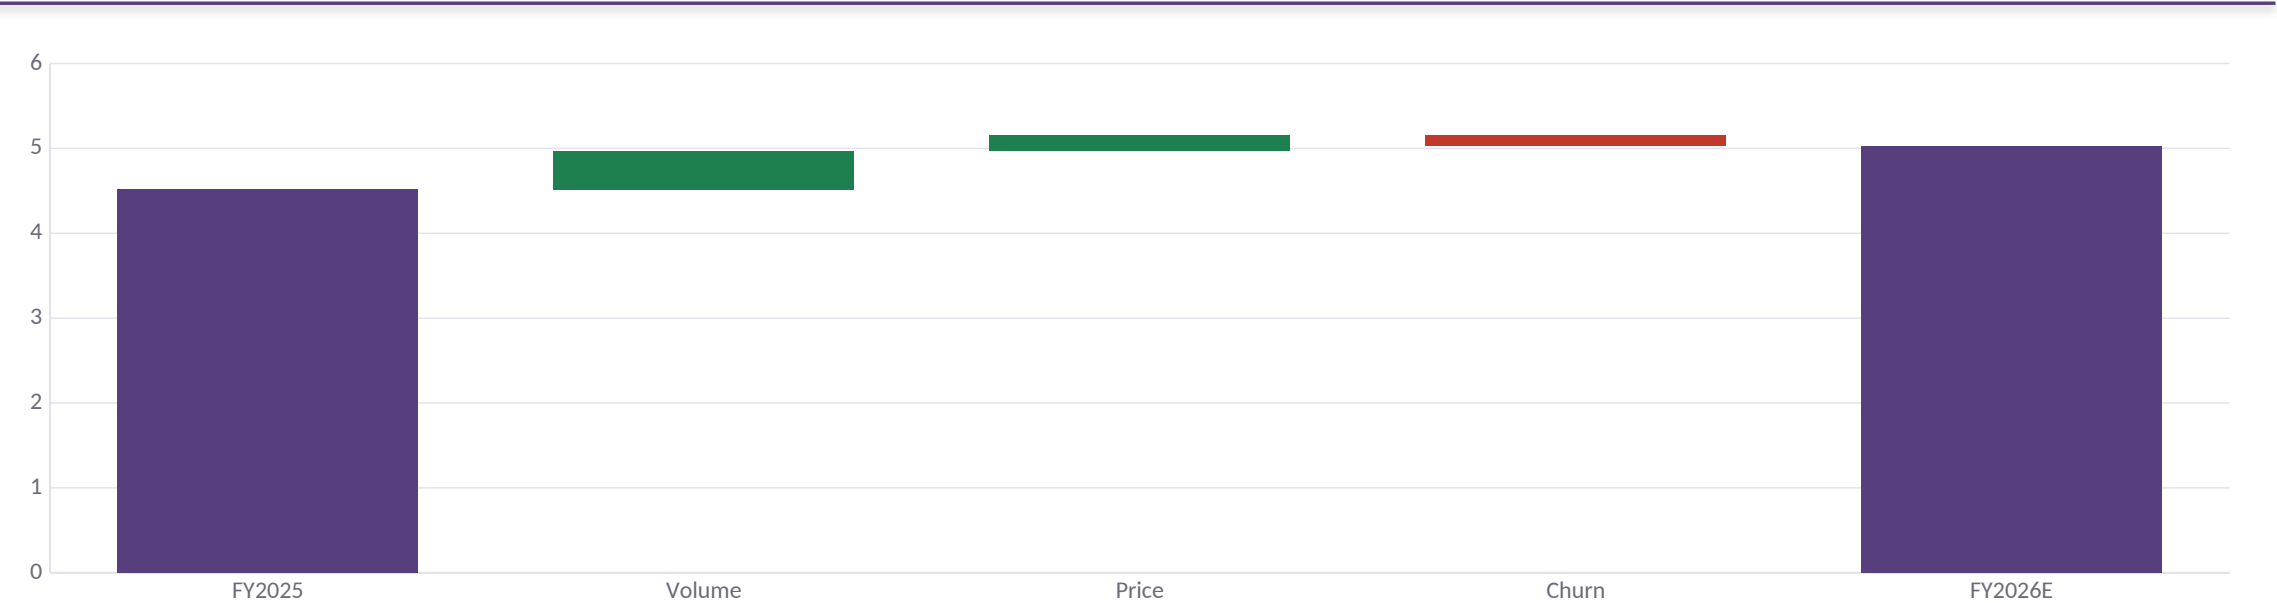

Revenue and net profit (FY2022-FY2025) · CNY bn · Source SRC-001

– Revenue and profit have grown every year, with growth accelerating in FY2025. [\[Fact\]](#)

FY2026E revenue bridge

FY2026E revenue bridge · CNY bn · purple=total, green=increase, red=decrease · Source SRC-001

– Volume expansion drives forecast growth, with a positive but modest price contribution. [\[Inference\]](#)

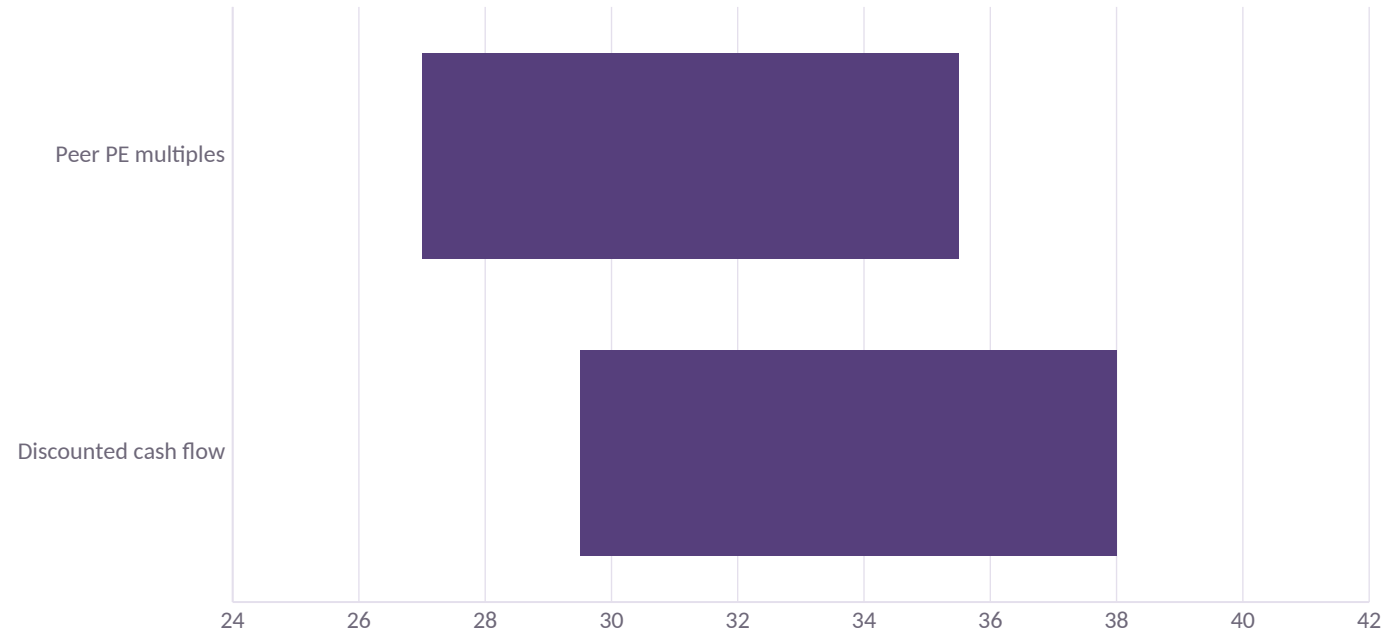

Comparable companies

Metric	Company	Peer A	Peer B
PE	18.2x	22.5x	15.8x
PS	2.1x	2.8x	1.6x
Revenue growth	20.2%	12.5%	8.9%

Multiples are fictional - Source SRC-005

- The company trades below Peer A and above Peer B; the growth premium is not fully priced. [\[Inference\]](#)

Valuation range and target price

Valuation range • Source SRC-001, SRC-005

Current price **28.40**

Target price **34.00**

- 9.5% WACC, reflecting sector equity costs and low leverage.
- Base case: 15% revenue CAGR over 2026-2028.

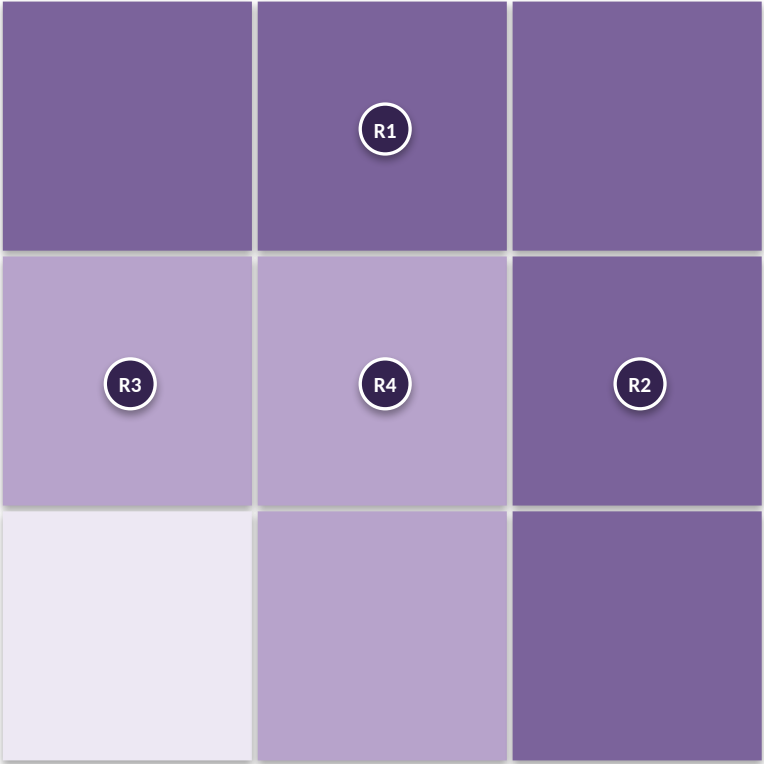

Catalysts and risks

Catalysts

- Next-generation control system launch [3-12m]
Planned for Q4; an on-time launch could drive new orders.

Risks

- Slowing downstream capex [Severity High • Likelihood Med]
- Price competition compressing margins [Severity Med • Likelihood High]
- Industrial policy shifts [Severity Med • Likelihood Low]
- High customer concentration [Severity Med • Likelihood Med]

Likelihood → (vertical: severity ↑)

Conclusion, sources and disclaimer

We assign an Accumulate rating with a CNY 34.00 target price. Counterevidence: industry capacity is expanding quickly, and growth could fall well short of forecast if downstream capex slows.
